Nokia 8390 Battery Replacement

This guide shows users how to remove the battery.

Written By: Clinton

INTRODUCTION

This guide shows you how to remove the battery in case of needed replacement.

TOOLS:

- Flathead 3/32" or 2.5 mm Screwdriver (1)

Step 1 — Back Cover

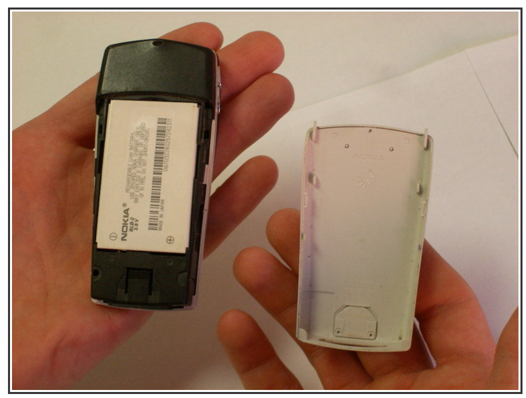

- Locate the button on the bottom of the back cover.

Step 2

- Depress the button with your finger.
- While the button is depressed, slide the back cover off of the phone.

Step 3 — Battery

- Place the phone so that the battery is face up.
- Insert a screwdriver or spudger into the crevice above the battery.

Step 4

- Use a screwdriver or spudger to lift the battery out of the casing.

To reassemble your device, follow these instructions in reverse order.
